

Commoning the Car

Free WiFi

SSID: ullinet-GUEST

Free Charge

USB-C / USB-A

What is this?

The open WiFi and the public sockets were installed in 2023 in the context of an artistic exploration on how to maximize utilization of private infrastructure. This car inhabits common space, it gives back to the community.

Is this safe to use?

Electrically speaking, yes. Go ahead.
For the purpose of the evaluation of this project, aggregate data on energy use is collected.

For the WiFi, internet access is never completely safe, take the same precautions as for other public access points.

Treat this equipment as your own, so that it can stay for the next person.
Please consider others before misusing or engaging in illegal activities.
This free offer would have to be taken down.
